

Flood Action Cards

(cut out cards)

A community buys two truckloads of sand to be used to make sandbags in case of flooding.

D

The town council creates open space and parks along the river that runs through town.

A

A county creates a hazard relief fund to support community members in need in the case of the occurrence of a hazard.

G

A community builds an additional road (a relief route) to have an additional entrance/exit point into town.

B

A town moves the main road through town out of a floodplain to a more elevated area.

E

The county creates infrastructure design standards for roadways and bridges to withstand major flooding events.

H

A family makes a go-kit in case of evacuation due to flood.

F

The school redesigns parking lots and playgrounds to direct water away from the building in case of flooding.

I

A neighborhood throws a block party to build relationships and to get to know each other better.

C

Wildfire Action Cards

(cut out cards)

A community invests in two new fire trucks to expand and update their fleet.

J

A town enforces “defensible space” regulations, and requires a 15-foot area cleared of trees around all public buildings.

Q

The county commissioners create a wildfire council that includes members from across the community.

M

A community builds an additional road (a relief route) to have an additional entrance/exit point into town.

N

Forest Service officials thin a forest close to a new neighborhood to decrease the fuel load in case of a wildfire.

K

The county creates infrastructure design standards for roadways to withstand flooding and wildfire.

P

A family makes a go-kit in case of evacuation due to wildfire.

R

School installs a fire-proof roof and new sprinkler system.

O

A neighborhood throws a block party to build relationships and to get to know each other better.

L

Drought Action Cards

(cut out cards)

The local extension agent offers a workshop for farmers and ranchers on improving soil health.

S

A town improves water infrastructure by replacing leaking pipes and inefficient sewers.

T

The county commissioners create a drought planning council that includes members from across the community.

U

A community builds a new reservoir for water storage.

V

The local extension agent conducts a campaign to promote water-efficient crops.

W

The county creates a water conservation plan.

X

School plants low-water use plants in the landscaping (xeriscaping).

Y

Homeowners install rain barrels to collect rain for their gardens.

Z

Ranchers install new headgates to minimize water leakage.
