

## Data Lens: Exploring Earth's Visual Stories

What is going on in the map shown? (optional – jot down your thoughts)

1. In this map, identify which Earth systems are shown.
2. How do these systems interact?
3. How might the systems change over time? For example, how might the map look different in February?
4. Higher order thinking – How might the map and the photosynthesis diagram be related?

### Multimedia extension

Explore one or more [National Marine Sanctuaries through 360° videos or images.](#)

1. Which sanctuary did you choose to view? Where is it?
2. What living things did you notice? Describe them if you don't know what they are called.
3. Finally, what careers do you think are highlighted in these videos and images?
